and flatten all boxes!**

A Green Workplace

Turn off your computer at the end of the work day.

Report tap leaks and running toilets to Engineering.

Turn off your lights whenever you leave your office.

Carefully separate recycling, organic waste and landfill.

Use reusable water bottles.

Bring a reusable coffee mug whenever you enjoy a beverage at work.

Did you know we recycle batteries and toner cartridges?

Go electronic! If you have to print, do so double-sided and in black and white.

Save energy and reduce waste.
Help us reinvest in our future.
